ABBREVIATION REFERENCE: AIR = American Indian Reservation; Trust Land = Off-Reservation Trust Land; TJS = Tribal Jurisdiction Statistical Area; TDSA = Tribal Designated Statistical Area; ANVSA = Alaska Native Village Statistical Area; ANRC = Alaska Native Regional Corporation; CCD = Census Civil Division; CDP = Census Designated Place; BNA = Block Numbering Area

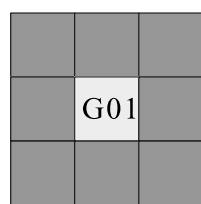

FEATURES

Figure 1 shows examples of map symbols. The symbols are arranged in two columns. The left column contains: Highway (solid line), Secondary Road (solid line with short perpendicular dashes), Jeep Trail/Walkway/Terrace (dashed line with small circles), Railroad (solid line with cross-ticks), Military (blue area with a grid of small squares), and Inset (gray area with a grid of small squares). The right column contains: Pipe/Power Line (dashed line with cross-ticks), Ridge/Physical Feature (solid line with small triangles), Intermittent Stream (blue line with a dashed center and wavy edges), River (blue line with a dashed center and wavy edges), Ocean (blue area with wavy lines), Nonvisible Boundary (dashed line), and Glacier (blue area with wavy lines and a dashed center). The Out Area symbol (gray area with a grid of small squares) is shown at the bottom right.

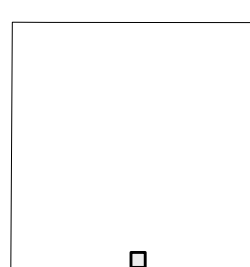

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest ranking of these boundaries.

- 1 The standard symbol for the only one indicates that the place is also a monadriety.
- 2 A '*' following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- 3 In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '99' suffix. An anchor symbol appeared on the 1990 maps symbolizing a crews-of-vessel tract. These maps show a very small area localized as a census tract with the census tract number shown near the area.
- 4 A '*' following a block number indicates that the block number is repeated elsewhere in the block.
